Our Story...

QUIQLITE Inc. (Quick Light) is a progressive company founded by Brian Quittner, a 15 year California law Enforcement veteran. QuiqLite was invented after recognizing the need for a hands-free concealed light source that could fit into a uniform shirt pocket for reading, writing and maneuvering in the dark. Because of QuiqLite's unique design, ease of use and dependability, QuiqLite Inc. has become a known and trusted name in the world of public safety. Police Officers, Paramedics, Search & Rescue, Firefighters, Military and many others use and depend on QuiqLite Products to help make their jobs easier and safer while working in the dark! Unlike other flashlights that impair your night vision by producing too much light, QuiqLite products are specifically designed to keep your night vision intact by providing just the right amount of light to get the job done!

What Makes Us Different From The Rest?

We manufacture the worlds only hands-free 100% concealed light source for your uniform shirt pocket or tactical vest. QuiqLite products give you the freedom of not having to hold your flashlight in your hand, under your arm or between your cheek and shoulder while reading, writing or maneuvering in the dark.

QuiqLite's Sleek Design comfortably clips into your uniform shirt pocket concealed under the lapel or clips into the Molle webbing of your tactical vest. It can also be clipped onto any surface up to 1 inch thick with its rotating removable QuiqClip.

Our Products Are Smart!

We incorporate a programmable computer circuit that offers a 10 minute auto-off battery saving timer. Our products also include a continual safety strobe that can be seen up to 1 mile away when you need to be seen our found.

Go into the dark with confidence.

Use a QuiqLite!

HANDS FREE
Concealed Light Source
for Your Uniform
Shirt Pocket**

QuiqLiteX

RECHARGEABLE

USB Rechargeable | 20 up to **150 Lumens**

QuiqLiteX is the world's smallest brightest USB rechargeable hands-free concealed light source for your uniform shirt pocket or tactical vest. QuiqLiteX has new features offering from 20 up to 150 lumens of light on demand with the push of a button.

QuiqLiteX now uses TCP (tactical circuitry programming) allowing you to activate the red or blue led without having to activate the white led first. TCP provides a tactical advantage by preserving your night vision and position. With QuiqLitePro's 160° adjustable light arm, you can set your perfect lighting angle without having to hold a flashlight in your hand, under your arm or between your cheek and shoulder.

QuiqLiteX now includes "QuiqFlare" attachment. Our answer to a personal safety flare attachment, making you visible from over 1 mile away when you need to be seen our found!

QuiqLiteX is easy to use: Simply push the main On/Off button through the fabric of your shirt pocket or between the loops of Molle webbing and your ready to go! If more light is required, simply push the X boost button located on the top of the product to increase the brightness from 20 to 75 lumens per white LED.

FEATURES

NEW QuiqFlare

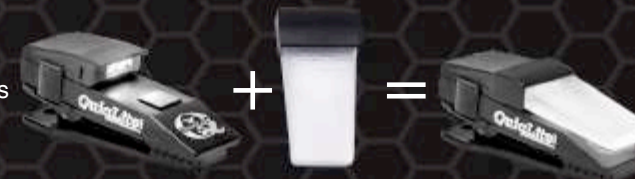

Personal Safety Flare Attachment

Safety Flare Attachment

New QuiqFlare is designed to attach to your QuiqLiteX and QuiqLitePro making you visible from over 1 mile away when you need to be seen or found in the dark.

QuiqFlare is perfect for marking hazards, roadside emergencies and any other situations where a bright beacon of flashing light is needed. QuiqFlare is made from durable nylon plastic and will burn brightly for hours. Now included with all QuiqLite models.

Why Use QuiqLite?

How many times have you dropped your flashlight while reading, writing or maneuvering in the dark? QuiqLite products are the perfect LED light sources allowing you the freedom of not having to hold your flashlight in the palm of your hand, under your arm or between your cheek and shoulder while reading, writing or maneuvering in the dark!

QuiqLite is low profile, light weight and easy to use: Simply attach QuiqLite products under the lapel of your uniform shirt pocket or Molle webbing loops of your tactical vest. With the push of a button you have hands free light!

Tactical hand held flashlights produce too much light for reading and writing: QuiqLite is designed to activate at 10 to 20 lumens to help preserve your night vision; giving you the tactical advantage. Keep your tactical flashlight on your belt ready to use for its intended tactical purpose. Use QuiqLite for everything else. QuiqLite features a 160° adjustable light arm allowing you to set your perfect lighting angle. QuiqLite has a built in 10 minute auto-off battery saving timer and Safety Strobe. QuiqLite products now include the New "QuiqFlare" personal safety flare attachment. QuiqFlare is visible from up to 1 mile away when you need to be seen or found.

QuiqLite is the perfect hands free LED light source for:
Law Enforcement, Paramedics, Firefighters, Military, Search & Rescue professionals and many others...
